Diplomate, American Board of Prosthodontics

Gail E. Frick, D.M.D.

Member of American College of Prosthodontists

Peridex and PreviDent

1. Brush with PreviDent and floss thoroughly daily.
2. Rinse with Peridex as directed daily for one week, and then stop.
3. Restart Peridex rinse after 3 weeks; continue this rotation of 1 week on and 3 weeks off until Doctor tells you to stop.
4. Please call the office as needed if you have any unfavorable reactions or intolerance, or require a Peridex or PreviDent prescription refilled.
